At Curledge Street Academy we believe in ensuring that all children are supported to achieve their very best. This is achieved through a whole school approach to teaching and learning, targeted resources and swift identification of needs.

Whole School Approach to Teaching and Learning:

- High Quality Teaching and Learning – All teachers are responsible for the learning and progress of every child in their class, including those with SEND
- An inclusive, differentiated and personalised approach to enable all learners, including those with SEND, to engage with all aspects of school life
- A whole school approach as identified in the Teaching and Learning Policy

Our Graduated Response for Learners:

- Continual monitoring of the quality of teaching
- Identifying and tracking the progress of children that require support to catch up through regular assessment and pupil progress meetings
- Identifying children requiring SEND Support and initiating the “assess, plan, do, review” cycle
- Consideration of application for an Education, Health and Care Plan
- Ensuring all children identified as requiring SEND Support, or with an Education, Health and Care Plan are on our Record of Need

How we identify children that need additional or different provision:

- Class teacher refers to SENDCO
- Ongoing curriculum assessments
- Tracking progress using data reviewed at regular pupil progress meetings
- Assessments completed by the SENDCO
- Further assessments by specialists, including those from external agencies

We take a holistic approach to all aspects of a child’s development and well-being. Our pastoral support arrangements for supporting the emotional and social development of all children, including those with SEND, is set out in our School Offer. Our measures to prevent bullying can be seen in our Anti-bullying policy.

How we listen to the views of children and their parents:

We believe in a partnership approach, working with all children and families to ensure that children achieve their potential and are safe, well cared for and happy at school. The following table sets out the way in which the school works with families and children to ensure that their needs and aspirations are captured, understood and reflected in the schools provision.

Partnerships with other schools and how we manage transitions:

We work with the schools across the Trust and more widely with schools in the area in the following ways:

- Visits to feeder nursery schools
- Transition meetings with nursery staff and outside agencies (when they are involved)
- Face-to-face meetings with secondary school staff and SENDCO
- Secondary SENDCOs invited to attend Annual Review meetings for pupils with Education Health Care Plans in year 6
- Phone conversations with previous school for transitional pupils
- Additional transition arrangements (including some additional visits to the school)
- Liaison with external support agencies including health and social care

We ensure that the transition between year groups is smooth by providing sessions in the new class, meeting the teacher and support staff. For children with SEND and emotional needs, we also build in further opportunities to spend time visiting the learning environment and building relationships with the new teacher and support staff.

The transition from year 6 to secondary school is supported through the structured listed above.

Parents are included in this process through regular involvement and parent-teacher discussions, Annual Reviews and Individual Support Plan Reviews.

Ongoing development:

We work hard to ensure that any areas of support for our learners that can be improved are identified and that strategies are put in place to make those improvements. This is outlined in our School Development Plan and Whole School Action Plan.
